

FRIARS YARD
SOUTHBANK

160 Blackfriars Road, SE1

friarsyard.london

THE BUILDING

Where business blooms

Friars Yard has been reimagined to currently provide 81,011 sq ft of premium and contemporary office space – with a new ninth floor communal roof terrace and best-in-class end of journey facilities.

FRIARS YARD
SOUTHBANK

THE BUILDING | EXTERIOR

The new arrival

Accessed via the new courtyard, the Friars Yard reception sets the tone for the design throughout the building and offers occupiers and their visitors space to meet and collaborate.

Above and beyond

The new ninth floor communal roof terrace, features pergolas, a rooftop bar, 360° views across the city and permission for evening functions – it's the perfect space to take a step back and relax – or collaborate with colleagues.

A fresh start

THE BUILDING

All in the detail

The building specification includes at basement level best-in-class end of journey facilities and a dedicated exercise space for those that want to relax and recharge. LED lighting, excellent natural daylight, openable windows and communal roof terrace, aids tenant well-being and productivity.

Fitted space available on the 4th floor

Newly designed and refurbished reception

Cycle ramp

111 cycle spaces and 111 lockers

Changing facilities with 11 showers (5 male / 5 female / 1 accessible)

Split floor available

Dedicated exercise space

3,186 sq ft top floor roof terrace including bar and pergolas

LED lighting

Openable windows

Available CAT A, CAT B or managed

Occupancy ratio 1:8 sq m

VRF floor mounted air conditioning units

3 x 13 passenger lifts

Raised access floors

Future thinking

Designed with sustainability in mind, Friars Yard has an active Net Zero Carbon pathway to achieve an economical carbon footprint, whilst the building is also looking to achieve BREEAM Excellent and EPC A ratings.

BREEAM Excellent targeted

EPC targeted rating: A

Active Net Zero Carbon pathway

CCREM interim 2030 target of 145kWh/m².year (27.5% reduction on existing usage)

CCREM 2050 target of 70kWh/m².year (65% reduction on existing usage)

Retained structure reducing embodied carbon

Increased biodiversity

8,120 sq ft of outdoor amenity space

CONNECTIVITY

FRIARS YARD
SOUTHBANK

Get moving...

Friars Yard is perfectly positioned with Southwark and Waterloo stations just a short walk away.

Travel times

Whether on foot or bike Friars Yard provides access to transport hubs meaning ease of movement across the city and further afield. Superhighway 6, for those on bikes, directly links Elephant & Castle through to King's Cross, passing the key transport hubs of Blackfriars and Farringdon on its way.

Lift 02
Otis MRL, 13 Person, 1000kg

Lift 03
Otis MRL, 13 Person, 1025kg

The building is served by water cooled variable refrigerant volume (VRF) systems, water source heat pumps (WSHPs) to temper the fresh air, and electric heating for back of house areas.

Floor to Ceiling Heights

Office Uppers (Level 1 – 4)
from top of RAF – c.2.6mm

Reception – c.2.6mm

Raised Floors

New raised floors throughout.

– void depth of 100mm
(minimum).

– overall build-up (less finishes)
126mm.

Air Conditioning

Ventilation

Filtered, tempered fresh air is delivered and returned at high level providing 14L/s/person at 1 person per 10m².

Heating and Cooling

Water Cooled VRF Floor Mounted Units, one unit per BCO Zone.

Cooling: 24°C DB

Heating: 20°C DB

Set-point: 22°C DB

Equipment Allowance: 20 W/m²

Lighting Allowance: 8 W/m²

Occupants: 75 W (Sensible) /
55 W (Latent) per person at 1/10

Lifts

There are 3 No. lifts in total, consisting of one central core with 3 no. passenger lifts.

Passenger lift 3 is a dual-purpose goods & passenger lift with dual entrance at ground level to facilitate access directly toward the service area.

Structure

Floor structure comprises reinforced concrete ribbed slabs with clay hollowpot. 200mm thk at Ground floor, 300mm thk for upper levels with screed topping.

Central, small diameter fixings for suspended tenant services and fittings can be made into the RC ribs.

Reinforced concrete perimeter columns at 3m centres, with internal RC columns at 6m centres.

External Finishes

The external façade comprises a mix of render, aluminium panels, bespoke external floor tiling and feature fluted glazing elements.

The ground level podium consists of curtain walling, with aluminium clad columns. Aluminium cladding also forms the entrance canopy and undercroft creating a grand entrance to the office and Friars Yard.

Feature fluted glass forms the fascia of the ground level podium and also the glazed panels within the entrance canopy.

Feature artwork to northern gable wall.

Levels 1 - 7

Newly rendered with recessed elements giving the façade a sense of depth and dynamism. Large windows punctuate the façade flooding the office with natural light.

Level 8

Consists of a set back floorplan fully clad in aluminium panels with generous roof terrace areas formed around the extent of the perimeter.

Roof level

A accessible roof terrace is bound by frameless, glazed balustrades providing expansive views over the city. New, black steel pergolas provide year-round use of the space.

WC Provision

Unisex and Accessible WCs are provided on every floor.

High-quality, durable materials will ensure a long lasting design that can withstand increased maintenance regimes and protect against accidental damage and scratching.

Accessibility

Accessible WC on every floor.

No access to roof terrace.

Internal Areas

The reception is accessed via a covered entrance canopy & undercroft fronting Blackfriars Road. It consists of a large, open reception space including seating areas and main lift lobby and a feature stair to all upper levels. Access via a fully glazed revolving door and surrounded by curtain wall glazing the space receives ample natural light and views out to Friars Yard and to Blackfriars Road.

Finished in a neutral palette of natural stone, textured concrete effect wall finishes and timber panelling, the reception provides a statement space to welcome employees and guests.

Each lift lobby and stair core is formed in a complimentary material palette to the reception, tying together the circulation spaces throughout.

Cycling Facilities

The bike store, fitness space and changing rooms (including showers, vanities and drying room) are contained within the lower ground floor. Accessed via the service entrance from Pocock Street, a dedicated ramp allows bicycles to be easily manoeuvred from lower ground to street level.

The quantity of cycle spaces is 111 comprised of 100 semi-vertical racks and 11 sheffield stands for varied bicycle types.

11 showers (5 male, 5 female, 1 fully accessible), wet & dry vanity stations and changing benches are provided.

112 lockers are provided within separate locker rooms split between male, female and accessible.

Lighting

LED lighting throughout office areas 350-500 lux with DALI dimmable control drivers.

Presence detection and time clock controlled throughout the office floor.
